IN THE CLAIMS

Please amend claim 4 as follows:

a<sup>1</sup>  
Claim 4 (once amended) A composition of claim 1 wherein at least one or more of the structured lipids is selected from the group consisting of caprylic/capric/lauric triglycerides and caprylic/capric/linoleic triglycerides.

Please amend claim 7 as follows:

a<sup>2</sup>  
Claim 7 (once amended) A composition of claim 6 wherein at least one emulsifier is [selected from] a polyglycerol ester of a fatty acid.

Please cancel claims 9-11.

Please amend claim 15 as follows:

a<sup>3</sup>  
Claim 15 (once amended) A method of treating hyperlipidemia comprising the step of administering a therapeutically-effective amount [administration] of a composition of claim 1 to a patient.

Please amend claim 16 as follows:

a3  
cancel

Claim 16 (once amended) A method of treating hyperlipidemia comprising the step of administering a therapeutically-effective amount [administration] of a composition of claim [9] 3 to a patient.

Please amend claim 17 as follows:

Claim 17 (once amended) A method of claim [16] 15 wherein the lipid-regulating agent is a fibrate.

Please cancel claim 18.

Please amend claim 20 as follows:

a4

Claim 20 (once amended) A composition of claim 19 wherein at least one co-solvent is selected from the group consisting of ethanol, propylene glycol[,] and dimethyl isosorbide.

#### Remarks

#### The Present Invention

The invention is directed to a formulation comprising a lipid-regulating agent dissolved in at least one structured lipid as the primary solvent medium for said agent. One or more emulsifiers may be added to the formulation.

U.S.S.N. 09/216,242
